Employment History

Shaw Software Solutions | Toronto, ON
Principal consultant (August 2018 - Present)

Advise a variety of clients in financial services and other industries on software development issues. Provide management, delivery, development and strategic guidance as needed.

Exiger / Outside Intelligence | Toronto, ON
Vice-President, DDIQ Engineering (December 2012 - July 2018)

Led the engineering team responsible for the DDIQ AI-enabled due diligence platform. Scaled the team from a handful of developers during the early days of startup to a world-class engineering team supporting a global client base. Responsible for strategic growth and architecture of the DDIQ platform as well as day-to-day management of deliverables.

(Outside Intelligence was acquired by Exiger in 2017).

Autodesk | Toronto, ON
Java Architect, Cloud Solutions (November 2011 - November 2012)
Technical lead for the PLM 360 platform.

Intelliware Development | Toronto, ON
Team Lead/Architect (January 2001 - October 2011)
Developed software for a wide range of clients in financial services and healthcare.

Netron | Toronto, ON
Software Engineering Consultant (May 1995 - December 2000)

Education

University of Waterloo | Waterloo, ON
Honours Bachelor of Mathematics in Computer Science, 1995
